

# School Closing Information

[Click here for Hurricane Awareness Information](#)

Dear Parents:

Inclement weather may develop in any season. We would like to remind you of the inclement weather plan for Mathews County Public Schools. Your cooperation is appreciated when we have early closings, late openings or closings for the entire day. Please be assured that decisions will be made with the safety of your child/children in mind.

The highway department and school transportation supervisor will be consulted and a decision will be made as quickly as possible. Please do not call the schools for closing information as telephone lines will need to be available to notify school personnel of closings. Remember that being prepared enables us to endure weather events. Please take a few minutes to review the attachments with your family.

Please listen to the radio or television stations listed below for closing information:

RADIO      WXGM (FM 99.1)

TELEVISIONWTKR-TV (Chan. 3)

WAVY-TV (Chan. 10)

WVEC-TV (Chan. 13)

If you have any questions concerning school closings prior to inclement weather, please call the Transportation Department at 725-5735 or the School Board Office at 725-3909.

Thank you for your cooperation and understanding.

Sincerely,

David Holleran

Division Superintendent
